SEA VILLAGE

THE ISLAND OF ALOHA

The youngest island in the archipelago, ‘Hawaii’s Big Island’ was believed to be the first island Polynesian voyagers set foot on 1,500 years ago. Today, the ‘Big Island’ remains a vital touchstone for Hawaiian culture, the birthplace of Hawaii’s greatest King, Kamehameha I, also the home of Pele, goddess of fire, and Kilauea, the world’s most active volcano.

Mark Twain called this island “the peaceullest, restfulest, balmiest, dreamiest haven of refuge for a worn and weary spirit the surface of the earth can offer”. Your refuge at Sea Village is located on the sunny, dry side of the island in Kona, where the trade winds keep you comfortable year-round. Float in the seaside pool, or sip estate-select Kona coffee from your private lanai with the Pacific close enough to taste as the surf breaks against the resort’s sea wall. A true vacation paradise.

KEAUHOU KONA
SURF & RACQUET CLUB
THE LEEWARD SIDE

The Keauhou Kona Surf & Racquet Club is located south of Kailua-Kona on the island's sunny leeward coast and close to everything, with golf, shopping, restaurants, and ocean activities just minutes away. A favorite playground for residents and vacationers alike, the Kona Coast is sunny and dry, perfect weather for growing rich coffee and macadamia nuts.

The 'Big Island' is the youngest and largest island of the Hawaiian chain, powerful volcanoes still spew fiery lava into the sea adding new acreage. Five volcanic mountains, two of which are still active, make up the island's 4,000 square miles. It is an island of many contrasts: parched, barren lava fields and hillsides abloom with wild orchids and exotic flowers; cool uplands and lush rain forests with breathtaking waterfalls; busy tourist towns and quiet villages where church services are held in the native Hawaiian language.

SEA MOUNTAIN

E KOMO MAI - WELCOME

One of the most unique sights in the world awaits you at Hawaii Volcanoes National Park. Home to Kilauea, the world's most active volcano, you can safely explore lava tubes, hiking trails, and overlooks, at this amazing site.

Your Polynesian style bungalow at Sea Mountain puts you a short 30-minute drive to this natural wonder, and others are even closer. Located in the arid, isolated, undeveloped part of the island known as South Point, it is set well apart from the bustle of Hilo or Kona. Moments away from the legendary black sand beach overlooking the Pacific Ocean, Sea Mountain is a quiet getaway. Sightseers will also want to visit Akaka Falls, a tumbling waterfall with a 442-foot drop. This is the Hawaii of old. Where tradition lives on and the Polynesian island atmosphere runs deep.
